

Show & Tell

September, 2021

Ellen Heywood

This lap quilt was made for my grandson to mark an important day, 5/5, thus the rows of five squares.

This is one of the first quilts I did in the mid 1990s. I just quilted it in 2021. Weird log cabin is all I can say.

A quilt with a dark blue background and a pattern of light blue and white geometric shapes, held up outdoors in a wooded area. The quilt features a central panel with a complex, interlocking geometric design, surrounded by a wide border of smaller, repeating geometric blocks. The quilt is held up by two people, whose hands and feet are visible at the edges. The background shows a dense forest with green foliage and a wooden railing.

Barb Thomas

This is a small quilt, 49" x 49", made from a kit purchased some time ago. The pattern is *Baby Charms* by *Straight to the Point*. The kit included a charm pack and coordinating fabrics for borders. The 4 patch blocks were pieced and sewn and then the quilt was cut diagonally and repositioned. Sara Parker Yoder quilted it for me.

This quilt is 11" x 21". The banner is fabric with wool appliqué. I loved that the wool appliqué pieces were all precut it saved a lot of time!
